# STEPS TO BUILD A CIRCULAR FUTURE IN VET SCHOOLS

## Build Your Team

Bring together a diverse group of people from your school – leaders, teachers, and even some businesses

## Identify Demands

Figure out what new "green" skills your VET school needs

## Embed Green Skills

Integrate Circular Economy concepts across all fitting subjects

## Teacher Development

Ensure teachers receive the necessary training and resources to teach these innovative skills.

## Efficient Resource Management

Set up effective programs for recycling and composting.

## Gain Real-World Experience

Partner with local businesses to give students valuable internships and letting them apply circular economy principles in actual company settings.

## Monitor Results

Regularly assess if students are mastering the necessary skills and if the school's green initiatives are effective.

## Stay Flexible

The school must continuously adapt its programs to new advancements and local needs.
